PROJECTS

Digiloans

Fall 2016

Created at the RBC Next Great Innovator Hackathon

[Github Source](#)

- Created a web application to digitize the process of applying for loans for small businesses
- Developed an interface for employers to quickly process the loan application with ease
- Allows the clients to know the status of their loan application in real-time
- Includes a live-chat for the employees and the client to easily discuss their loan application
- Built using Flask and Bootstrap and also has a mobile-friendly design

Personal Website

Winter 2016

View it at: <http://chintans.me>

[Github Source](#)

- Created a personal website to showcase myself and my personal projects
- Designed a Material Design inspired website that is mobile-friendly
- Built using HTML, CSS and Javascript (MaterializeCSS)
